FROM: David P. Driscoll, Commissioner of Education (Interim) 

SUBJECT: Institutional Summary Results for the July 11, 1998 Administration of the Massachusetts
Teacher Tests

GOVERNMENT DOCUMENTS
COLLECTION

FEB 02 1999

University of Massachusetts
Depository Copy

The results of the second administration of the Massachusetts Teacher Tests now are available for each of the higher education institutions whose candidates took those tests on July 11, 1998. This report may be made public as early as Monday afternoon, August 17.

The attached report is similar to that for the April administration (sent to you on July 21). The difference is that this report provides information on test-takers in three ways: all who took the tests in July, those who took tests for the first time in July, and those who retaken any or all portions of the tests. In each case, the report gives the number of candidates from each institution who took the tests and the percent who met the qualifying score for each of the following categories:

- 1) Reading sub-test of the Communication and Literacy Skills Test;
- 2) Writing sub-test of the Communication and Literacy Skills Test;
- 3) Communication and Literacy Skills Test (both sub-tests);
- 4) All Subject Tests;
- 5) Communication and Literacy Skills Test and all Subject Tests; and
- 6) Individual Subject Tests

As for the April administration, results for those candidates who are unaffiliated with any Massachusetts educator preparation institutions also are included in this report.

By the middle of next week, we will send you a report of the results, with test subarea information, for each candidate from your institution who took tests in April and July. At the end of next week, we will send you a report of the cumulative results, statewide and by institution, for this first "year" of the testing program, i.e., the April and July test administrations. In future, you will receive annual reports of results for the program year (September - August).

We are committed to making data generated from test administrations available to you for your interpretation and action. The data should assist higher education institutions to analyze strengths and weaknesses.

Please contact Joy Simon at (781)388-3300, ext. 253 if you have any questions this coming week. Carol Gilbert, Administrator for Educator Preparation and Professional Standards, will be available at (781)388-3300, ext. 204 beginning August 25.

TEST SUMMARY

Description of Report

This report presents the results for the candidates who took the Massachusetts Teacher Tests for the first time (i.e., first-time test takers) on the test date indicated. This report includes, by institution, the total number of candidates who took the Communication and Literacy Skills Test - Reading subtest and the percent passing the Reading subtest; the total number of candidates who took the Communication and Literacy Skills Test - Writing subtest and the percent passing the Writing subtest; and the total number of candidates who took the Communication and Literacy Skills number of candidates from the institution who took a subject test and the percent passing the subject test. Interpretive Cautions and Notes

1. Information regarding candidate institutional affiliation was obtained from candidates as self-reported information on the registration form during the test registration process. This information was forwarded to institutions of higher education, which were provided with an opportunity to verify the candidates' institutional affiliation. The institutions were informed that if they did not respond to the verification request as explained, the data to be included in their results would be based on candidate-reported institutional affiliation. Candidate institutional affiliation was verified for 54 of 55 institutions. The data for one institution (see "+") is based on candidate-reported institutional affiliation. The category "Unaffiliated Candidates" includes candidates who did not designate a Massachusetts institutional affiliation. Candidate institutional registration form and candidates who were not verified by the institution designated by the candidate.
2. Results based on fewer than five candidates are not included in this report to protect confidentiality of scores of individual candidates.
3. Cautions about interpreting these data
 - Results reported for only a small number of candidates from a given institution may not be indicative of how large numbers of candidates from that institution typically perform.
 - Candidates whose data are presented in this document may not reflect the same performance as that of candidates who will take these tests in the future.

SUBJECT TESTS

Description of Report

This report presents the results for the candidates who took the Massachusetts Teacher Tests for the first time (i.e., first-time test takers) on the test date indicated. This report includes, by institution for each subject test, the total number of candidates who took the subject test and the percent passing.

Interpretive Cautions and Notes

1. Information regarding candidate institutional affiliation was obtained from candidates as self-reported information on the registration form during the test registration process. This information was forwarded to institutions of higher education, which were provided with an opportunity to verify the candidates' institutional affiliation. The institutions were informed that if they did not respond to the verification request as explained, the data to be included in their results would be based on candidate-reported institutional affiliation. Candidate institutional affiliation was verified for 54 of 55 institutions. The data for one institution (see "+") is based on candidate-reported institutional affiliation.
2. The category "Unaffiliated Candidates" includes candidates who did not designate a Massachusetts institutional affiliation on their test registration form and candidates who were not verified by the institution designated by the candidate.
3. Results based on fewer than five candidates are not included in this report to protect confidentiality of scores of individual candidates.
4. Subject tests not taken by five or more candidates from any institution or in the "Unaffiliated Candidates" category are not included in this report.
5. An institution is not listed in this report if no subject test was taken by five or more candidates affiliated with that institution.
6. Cautions about interpreting these data
 - Results reported for only a small number of candidates from a given institution may not be indicative of how large numbers of candidates from that institution typically perform.
 - Candidates whose data are presented in this document may not reflect the same performance as that of candidates who will take these tests in the future.

SUBJECT TESTS

Description of Report

This report presents the results for the candidates who retook (i.e., second-time test takers) the Massachusetts Teacher Tests on the test date indicated. This report includes, by institution for each subject test, the total number of candidates who retook the subject test and the percent passing.

Interpretive Cautions and Notes

1. Information regarding candidate institutional affiliation was obtained from candidates as self-reported information on the registration form during the test registration process. This information was forwarded to institutions of higher education, which were provided with an opportunity to verify the candidates' institutional affiliation. The institutions were informed that if they did not respond to the verification request as explained, the data to be included in their results would be based on candidate-reported institutional affiliation. Candidate institutional affiliation was verified for 54 of 55 institutions. The data for one institution (see "+") is based on candidate-reported institutional affiliation.
2. The category "Unaffiliated Candidates" includes candidates who did not designate a Massachusetts institutional affiliation on their test registration form and candidates who were not verified by the institution designated by the candidate.
3. Results based on fewer than five candidates are not included in this report to protect confidentiality of scores of individual candidates.
4. Subject tests not taken by five or more candidates from any institution or in the "Unaffiliated Candidates" category are not included in this report.
5. An institution is not listed in this report if no subject test was taken by five or more candidates affiliated with that institution.
6. Cautions about interpreting these data
 - Results reported for only a small number of candidates from a given institution may not be indicative of how large numbers of candidates from that institution typically perform.
 - Candidates whose data are presented in this document may not reflect the same performance as that of candidates who will take these tests in the future.

SUBJECT TESTS

Description of Report

This report presents the results for all candidates (i.e., all test takers) who took the Massachusetts Teacher Tests on the test date indicated. This report includes, by institution for each subject test, the total number of candidates who took the subject test and the percent passing.

Interpretive Cautions and Notes

1. Information regarding candidate institutional affiliation was obtained from candidates as self-reported information on the registration form during the test registration process. This information was forwarded to institutions of higher education, which were provided with an opportunity to verify the candidates' institutional affiliation. The institutions were informed that if they did not respond to the verification request as explained, the data to be included in their results would be based on candidate-reported institutional affiliation. Candidate institutional affiliation was verified for 54 of 55 institutions. The data for one institution (see "+") is based on candidate-reported institutional affiliation.
2. The category "Unaffiliated Candidates" includes candidates who did not designate a Massachusetts institutional affiliation on their test registration form and candidates who were not verified by the institution designated by the candidate.
3. Results based on fewer than five candidates are not included in this report to protect confidentiality of scores of individual candidates.
4. Subject tests not taken by five or more candidates from any institution or in the "Unaffiliated Candidates" category are not included in this report.
5. An institution is not listed in this report if no subject test was taken by five or more candidates affiliated with that institution.
6. Cautions about interpreting these data
 - Results reported for only a small number of candidates from a given institution may not be indicative of how large numbers of candidates from that institution typically perform.
 - Candidates whose data are presented in this document may not reflect the same performance as that of candidates who will take these tests in the future.
